Performance Summary

	Marginal	Effective	Outstanding	Not Applicable
Business Goals				

Title	1	2	3	4	5	N/A
Develop skills & Contribute to a high performing team						
Description						
- Improve written and verbal communication skills around technical knowledge - Broaden understanding of engineering concepts and industry best practices for platform development, maintenance, and operations - Build knowledge around our commonly used technologies and platform offerings - Establishing meaningful connections with team members - Continue to create and maintain an environment of belonging and collaboration - Be an ambassador for culture and modernization - Build a greater understanding of the GKE and GCP as a whole - Contribute to the design of technical solutions and platform operations						
Comments						
Luke has performed above expectations in regards to this goal. His initiative and technical aptitude has led him to deliver consistently over the course of the last year. He was able to pick up unfamiliar technologies at great speed.						

Title	1	2	3	4	5	N/A
Ensure stability and availability across all KaaS environments						
Description						
- Improve upon dashboards for clear visibility of platform health - Improve Kafka operations through automation and documentation

Marginal	Effective	Outstanding	Not Applicable
----------	-----------	-------------	----------------

Business Goals

- documentation surrounding issue fixes in order to minimize customer impact
- automate processes in order to free up engineering time
- document general/common processes for future use to save time and prevent uncertainty
- Contribute to the teams effort of making GCP Kafka generally available by November 1st, 2021
- learn what common operations will be necessary for the team going forward

Comments

Luke has been critical for the stability of our Azure Kafka platform. We've had many headaches regarding supporting this platform, and Luke has picked up issues in stride. His contributions to documentation, metrics, and alerts have led to crucial platform stability.

Needs Improvement	Meets Expectations	Exceeds Expectations
